THE BOWL

SET UP YOUR BUNG HOLE GAME

Space out your Bung Hole Bowls 20ft from each other in the sand. As you improve your abilities, move it farther away (25/30 ft)! Be sure the Bowls are pushed down nice and tight-like into the sand to be flush with the surface to allow Bungs to slide right in. Optimum recommended beach surface is the smooth packed sand close to the water.

Rotate the bowl in sand until bowl is stuck in! Remove sand from hole and rotate bowl again and again until the Bowl is level with the beach surface. Ensure the lip is not sticking above sand as this will restrict Dingleberries as well as other Stinkers. After a few Flushes, level and pack sand around bowls! If playing in the dry fluffy sand, make the distance between Bowls shorter. You don't want to lose sight of your Bowl. That would be sad.

TEAM GAMEPLAY...IF YOU HAVE FRIENDS

Singles - 2 players: One player at each Bowl tosses all 4 Bungs into the other Bowl
Doubles - 4 players: Each team has 2 players, each team has one player at a Bowl with 2 Bungs

THE POINT OF THIS GAME IS...

Toss a Bung and try to get it into the Bowl. Once all 8 bungs have been tossed it's a **FLUSH**. Record each team's score. Start the next Flush with a clean Bowl.

Players/Teams can choose to play to whatever final score they want. (ex. 11 to 21)
Or if you're super duper cool, you can play a certain number of **FLUSHES** to win the game.
The high score after each team throws all 4 Bungs wins the **FLUSH**.

GET YOU SOME BONUS STINKERS!

DROPPING A DEUCE - +2 Points

Land 2 Bungs in the bowl within the same exact flush! What did you eat?!

DROPPING A LOAD - +3 Points

HOW TO WIN THIS CRAZY GAME

THE PLUNGER - WINNER!

If a player/team gets all 4 bungs into the bowl during a **FLUSH** you/or the team are the Master Bung Tossers. A Plunger automatically wins the game and stops the play.
